

Your SureShot FlexoShot Dispenser is the ideal self-serve solution for your dairy products.

Convenience, durability, and reliability make SureShot FlexoShot refrigerated dispensers the ideal solution for a variety of liquids including cream, milk, ready-to-drink cappuccino, coffee blends, and beverage bases.

With the flexibility to choose product bags or refillable containers, you'll appreciate bulk product cost savings, improved sanitation and reduced labor costs thanks to a reduction in refill frequency.

The optional illuminated display features an eye-catching main door display area that can easily be customized with your marketing message.

Your customers will enjoy faster service, improved convenience, and great tasting beverages with every visit!

FEATURES AND BENEFITS:

- Proven refrigeration system ensures consistent product quality, optimal shelf-life, and sanitation
- Illuminated cup targets (included with optional illuminated display feature) enhance the service area and offer better visibility and convenience
- External temperature display and adjustment capability
- Dramatic cost savings by eliminating waste
- Includes attached catch tray
- USA and Canada-wide Service Network with SureShot Technical Assistance Center support
